UNIVERSITY OF LODZ

01 Why Poland is interesting?

- Poland, officially the Republic of Poland, is a country in Central Europe, bordered by Germany to the West, Czech Republic and Slovakia to the South and Ukraine, Belarus, Lithuania and Kaliningrad Oblast to the East. Poland’s north border is delimited by the 528-kilometer coast of The Baltic Sea.

- Poland’s history is more than a thousand years of complicated and grand times with outstanding people creating the history of Poland and the history of the world, these are: Nicolas Copernicus, who "stopped the Sun and moved the Earth", king Jan Sobieski, who defended Vienna against Turks, Maria Curie-Skłodowska, who discovered radium and polonium, a great composer Friderick Chopin, President Lech Walesa, Andrzej Wajda, Andrzej Kieslowski, Arthur Rubinstein, Czeslaw Milosz, Pope John Paul II any many, many more…

- Thirteen sites in Poland have been put on the UNESCO list of World Heritage Sites.

- Polish cities with a thousand-year history invite their visitors to encounter with culture. Poland’s villages and small towns offer the opportunity to get away from the bustle of modern life, but Poland’s greatest attraction is nature: wild, untouched, more diverse than in most countries either in Europe or the world. You can find more or less everything here: alpine mountains, wide beaches, clean lakes, deep forests, world-class historic monuments, and even a desert in Southern Poland. All of that and also friendly people make the country very attractive for foreign visitors.

- Poland is a member of NATO, since 1st May 2004 a member of the European Union; on the 21 December 2007 Poland joined The Schengen Area. Poland has also one of Europe’s youngest populations – half of its citizens are less than 35 years old. Out of nearly 39 million Poles almost 2 million are the university students.

- Polish academic traditions reach back to 14th century; some of the Europe’s oldest universities can be found here. Polish universities are well-known all over the world for the high level of education they offer.

Students’ exchange in Poland lasts for many years, however, it rapidly increased after Poland’s accession to the EU. From that moment our university-level schools became part of European Area of Higher Education, which meant unifying and intensifying contacts with foreign academies on various levels.

Most of all, universities gained the possibility of free and easy exchange of students within European Union countries and opened themselves to the rest of the world. Lodz, being one of the largest cities in Poland (nearly 800 thousand inhabitants), is one of the most significant academic centres with more than 120 thousand students! University-level schools offer their students, wide range of complementary areas of study, ranging from humanities, through science, engineering and medicine, to academic studies like fine arts, music, film and direction.
Let’s meet in Lodz!

**CITY OF LODZ – CITY OF FOUR CULTURES**

At the beginning of the 19th century Lodz has been changed from a small town into an industrial metropolis – "The Promised Land". A massive influx of workers from the Congress Poland and Western Europe flooded the city, though the mainstay of the town's population was made up of four cultures: Polish, German, Russian and Jewish. This fascinating blend of cultures and religions has been an inspiration for the Festival of Dialogue of Four Cultures organised in Lodz since 2002.

**HOLLYLODZ**

Lodz is famous for its film traditions. The Polish National Film, Television and Theatre School is invariably one of the best film schools in Europe. The most known graduates are: Krzysztof Kieślowski, Roman Polański, Krzysztof Zanussi, Jerzy Skolimowski or Andrzej Wajda. Just like on the Hollywood Boulevard, one can find the Walk of Fame on Piotrkowska Street in Lodz. Moreover, you can learn the history of Polish cinematography in the one and only Museum of Cinematography in Poland.

**CITY OF FESTIVALS**

Every year dozens of cultural events are held in Lodz. Concerts, film, music and theatre festivals attract more and more outstanding guests and tourists. The events worth recommending are:

- Festival of Dialogue of Four Cultures (www.4kultury.pl)

**CLUBBING CENTRE**

The cultural-entertainment life concentrates predominantly in the city centre, along Piotrkowska Street. Here are the branded fashion shops, more than 100 pubs, restaurants, clubs, discos and cafes. Łódź Kaliska (a meeting spot for students of art academies), Lizard King (for rock fans), Klub Jazzga
(with jazz concerts and clubbing events), Peron 6 (serving more than 160 beer brands), Irish Pub, Klub Siódemki, Dublin Pub, Bagdad Cafe and Rolling Stone are among the most popular. Enthusiasts of Eurodance rhythms are welcome to party all night long at the Cabaret, Cube, Nexus, Port West and Paradox discos. Average prices are: a glass of beer about 2 € and dinner for two people about 15-20 €. Just visit Lodz and turn the night into an exceptional journey!

**UNIQUE ARCHITECTURE**

Tenement houses and great residences are now regaining their splendor. The revitalized facilities have been transformed into lofts, commercial and entertainment complexes and art centers. Nowadays the complexes of nineteenth-century industrial architecture are unique on a European scale. Two of them, erected by a famous manufacturer – Karol Scheibler, are situated within the area of so called "Księży Młyn". Another complex used to belong to Scheibler’s competitor – Izrael Poznański. At present it is shopping, leisure and culture center called "Manufaktura". Many of old, historical monuments like palaces or manufacturer’s houses are reconstructed and adopted for university’s needs.

- NON-EU/EEA Citizens

VISA

A citizen of a non-EU/EFA country can enter the territory of Poland on the basis of a valid travel document (passport) and a visa (if required). A citizen of a non-EU country has to obtain the visa from the consulate of Poland in his/her country of residence. The short term visa entitles to stay in Poland up to 3 months, the long-term – up to 1 year. The prolongation of visa in Poland is only possible in case of a force majeure or situation impossible to foresee while applying for the visa in the consulate. The visa can be prolonged only once.

It is therefore necessary to apply for a visa in a consulate for the whole planned period of stay in Poland.
For details please contact the Polish Consulate in your country.

Individuals who have received a visa for the whole period of stay in Poland are not obliged to apply for a residence permit for their stay in Poland.

03.10. MEDICAL CARE AND HEALTH INSURANCE

Foreign students, including Erasmus students, are obliged to have a complete health insurance and a third party liability insurance, for the whole period of their stay in Poland.

EU/EEA citizens

Health care system in Poland is based on general health insurance.

Individuals covered by the general health insurance are entitled to free health services on the territory of Poland at the health care providers who signed contracts with the National Health Fund (NFZ/Narodowy Fundusz Zdrowia). The National Health Fund is the institution responsible for assuring health services for insured individuals and members of their families.

During a temporary stay in Poland, a person entitled to health care under EEA rules can receive health services in the following areas:

- primary health care
- specialist out-patient care
- hospital treatment
- dental treatment
- rescue services and ambulance transport.

In case of necessity of providing medical care, a student from a member country staying temporarily on the territory of Poland is entitled to free health care on the basis of European Health Insurance Card (EHIC) issued in his/her country or in particular cases on the basis of a special certificate. The student is obliged to present one of these documents (it is advisable to have also a copy) together with an identity document directly to the health care provider.

- The student will receive free health services at health care providers who concluded a relevant contract with NFZ.

- In case of lack of these documents patient will be obliged to cover costs of treatment by himself/herself. The same obligation arises in case of treatment provided by a health care unit which has no contract with NFZ.

- If there is a need of hospital treatment, a doctor’s referral is required.

- In case of sudden illness, accident, injury, intoxication, life threat, a patient receives necessary medical benefits without referral.
• A patient who presented European Health Insurance Card or a certificate, receives free hospital treatment within the general health care system.

• Apart from academic and public medical care system there is also a well-developed private sector. The costs of medical care may be reimbursed if a student has purchased a health insurance policy in his country before departure.

**Non-EU/EEA citizens**

The students from non-EU/EEA countries should purchase health insurance in their home country, before departure. In case of the ISIC or Euro<26, insurance is included in the card and the student does not need to buy another one unless he/she wants to increase its scope or value. Erasmus students (having so called legitymacja studencka – student’s card – issued by the host university) are allowed to consult doctors at academic medical care centres.

In any way, according to state health regulations foreigners (except the EU/EEA citizens, see above) have to pay for a medical consultation. The cost is then reimbursed by the health insurance company.

More information can be found on: www.nfz.gov.pl

Should the insurance company at home not pay benefits abroad, students must get insurance after arrival in Poland. To obtain health insurance a student can apply to a local branch of National Health Fund (Łódź, Żeligowskiego 32, phone: +48 42 634 19 14, 677 49 40). A copy of passport and confirmation of Erasmus student status from the University (in Polish language) will be necessary. Monthly contribution is around 9 Euro. The whole sum (contributions for all months) can be paid at the beginning, to avoid remembering to do it every month.
The Academic Health Centre PALMA
Łódź, Lumumby 14
phone.: +48 42 633 04 16, 42 633 42 00

Before seeing a doctor it is necessary to register at the registration desk and to present insurance policy and student ID (called LEGITYMACJA). Moreover, a medical unit is situated on campus, however, it provides a general help. It is situated in XIII Dormitory, phone: +48 42 678 22 67.

To register there for the first time, student has to fill in a special form (in Polish).

It is advisable to go with a Polish person to avoid communication problems.

05.1. SHOPPING

From Mondays to Fridays shopping hours are from 6:00 a.m. to 6:00 p.m. (groceries), other shops from 10:00 a.m.; and from 10:00 a.m. to 3:00 p.m. on Saturdays. Some local groceries may be open on Sundays, too. Stores do not close for lunch. We strongly recommend purchasing food and detergents in big supermarkets which are in abundance in Lodz: Tesco, Real, E.Leclerc, Carrefour. They are opened from 8:00 a.m. till 10:00 p.m. and they offer very reasonable prices. Another spot, well spoken of as a good shopping place, is Bałucki Rynek, a large open-air market in the Northern part of Lodz where you can buy fruit and vegetables. Those interested in buying stylish clothes of high quality and well known brands should visit Manufaktura and Galeria Łódzka – a large shopping mall in the centre of Lodz.

- **Example of prices in PLN**

  - a loaf of bread: 3 zł
  - a litre of milk: 2,50 zł
  - a cup of yoghurt: 1,60 zł
  - a 1 litre carton of orange juice: 5,50 zł
  - a 1 litre bottle of coke: 2,30 zł
  - 1kg of ham: 35 zł
  - 1 kg of sausages: 18 zł
  - 1 kg of cheese: 20 zł
  - 1kg of potatoes: 1,30 zł
  - a newspaper: 3 zł
  - a cinema ticket: 25 zł

05.2. CLIMATE AND CLOTHES

It happens quite often that people associate Poland with North Pole or South Pole and amiable polar bears. Unfortunately the only polar bear that we have is kept in the Zoo and the legendary cold, snowy winters sank into oblivion due to the warming up of the climate. The average temperature in the winter months December, January, February is -2°C. These months are normally snowy which provides a splendid occasion for going to ski in the mountains. We advise bringing heavier coats, gloves, caps and boots. March, April vary between cold and warm days with average temperatures of 12°C. After that comes a considerable warming up and the weather becomes more bearable. It is very possible to experience heat during the summer months.

The dress code at the University is rather informal. The average Polish student tends to dress very casually when attending lectures, tutorials and so on. There are special occasions throughout the academic year where it might be more appropriate, but not necessary, to dress more formally.
